PART OF YOUR PERMIT

Christmas tree permit stipulations

These stipulations are part of your permit. Breaking them can lead to a fine, loss of your permit, or both.

1. Cut only the number of trees on your permit, each no taller than 20 feet.
2. Choose a tree growing within 10 feet of other trees. Never cut the only tree in an opening.
3. Leave stumps no taller than 6 inches, and remove any branches left on the stump.
4. Do not cut within 150 feet of roads, trails, campgrounds or water.
5. Stay inside the cutting areas shown on your permit map, and stay off private land.
6. If your permit includes haul tags, cut or tear out the month, day and AM or PM on a tag before loading, and attach it where it can be seen. Use one tag for each tree, attached to the trunk.
7. Winter roads may not be plowed. Carry chains, a shovel, warm clothes and water.
8. Trees cut under this permit are for personal use and may not be sold.
9. Carry your signed permit while cutting and transporting your tree.

Sample document for the demonstration site. It is not an official notice and is not for navigation.
