PART OF YOUR PERMIT

Firewood permit stipulations

These stipulations are part of your permit. Breaking them can lead to a fine, loss of your permit, or both.

1. Cut only dead and down trees, or standing dead trees marked for removal. Never cut a live tree.
2. Leave stumps no taller than 12 inches.
3. Stay inside the cutting units shown on your permit map. Areas marked closed are off limits.
4. Drive and park only on open roads. Do not drive across streams, meadows or wet ground.
5. Do not cut within 100 feet of streams, lakes, campgrounds or trailheads.
6. If your permit includes haul tags, cut or tear out the month, day and AM or PM on a tag before loading, and attach it where it can be seen. Use one tag for each half cord.
7. Your chainsaw needs a working spark arrester. During fire season, carry a shovel and a fire extinguisher.
8. Follow posted fire restrictions and closures. They can change without notice.
9. Firewood under this permit is for personal use. It may not be sold or traded.
10. Carry your signed permit while cutting and hauling, and show it to any BWL officer who asks.

Sample document for the demonstration site. It is not an official notice and is not for navigation.
